

GUIDE TO NATURAL GAS MARKETERS

Marketers are companies that compete to provide natural gas service to you. Marketers arrange the buying and selling of natural gas to your home or business. Atlanta Gas Light maintains the company-owned pipes and is available 24 hours a day to respond to natural gas emergencies. The following marketers are certified by the Georgia Public Service Commission to sell natural gas services in the state of Georgia.

Regulated Provider:

SCANA Energy Regulated Division

Choosing a Certified Natural Gas Marketer

The Georgia Public Service Commission has established strict financial and technical requirements that companies must meet before they are certified and allowed to sell natural gas in Georgia.

How Do I Choose a Marketer?

Choosing a marketer is an important decision. You are the best person to make this decision based on your own personal and financial situation. Take time to choose a marketer. Read all of the materials provided by the marketer. To help with the decision, below is a check list of important questions to ask:

GENERAL QUESTIONS

- Are you certified by the Georgia Public Service Commission?
- Do I have to sign a contract?
- If so, what are the terms and length of the contract?
- Is there a fee for canceling?
