FOR IMMEDIATE RELEASE

DRI #4585 Final Report

On December 24, 2025, the City of Forsyth received the Final Report for DRI #4585, the proposed Forsyth Technology Campus project. The report is available for review on the City of Forsyth's website, www.cityofforsyth.net.

Following the submission of the Initial DRI form and Additional Information DRI form, the Middle Georgia Regional Commission (MGRC) distributed a request for comment to potentially affected agencies. Responses were received from the Georgia Environmental Protection Division, Department of Public Health, High Falls Towaliga Watershed Alliance, Georgia Department of Transportation, and Monroe County Board of Commissioners. All comments are attached to MGRC's Final Report.

The Forsyth Planning and Zoning Commission will hold a special called meeting at 5:00 PM on Wednesday, January 14, to continue their tabled discussion regarding the Conditional Use application for the proposed data centers and utility substations and to vote on a recommendation to City Council.

The Planning and Zoning Commission's recommendation will be heard by City Council at the City Council meeting at 6:00 PM on Monday, February 2, during which time the second public hearing for the rezoning and conditional use applications will also be held. Both the Planning and Zoning called meeting on January 14, 2026, and the City Council meeting on February 2, 2026, will be held in Council Chambers at Forsyth City Hall, 23 E. Main St.
