

**PUBLIC NOTICE - CITY OF FORSYTH WATER CUSTOMERS
WATER CONSERVATION MEASURES
DROUGHT RESPONSE LEVEL 2**

During the October 7, 2019 Council meeting, Utility Partners, LLC reviewed drought conditions which have significantly impacted water levels at the City reservoir. The decreased water levels at the City reservoir are a direct result of the lack of significant rainfall over the past several months and the lack of significant rainfall in the forecast will continue to impact the water levels. Forsyth City Council approved initiating the EPD Drought Response Level 2 conditions effective immediately. Below are the conditions of the Drought Response Level 2. If you have any questions regarding this notice, please contact City offices at 478-994-5649 or 478-994-7747.
