

Public Advisory

BOIL WATER NOTICE

SHARP STREET BETWEEN JONES AND HUNTER, ALL OF
PINKNEY CIRCLE

June 18, 2020

The isolation of a water main for repair has caused water pressure in parts of the water system to drop to dangerously low levels. When this occurs a potential health hazard may exist in these areas of zero pressure from backflow and/or back-siphonage of water of unknown quality into the water distribution system.

In order to protect the public from a potential health hazard, all citizens that have experienced water outages and/or low water pressures are advised to “boil” all water prior to use for drinking, cooking, or preparing baby food. The water should be boiled for at least one minute after reaching a rolling boil. Citizens should continue to boil their water until they are notified by their drinking water utility that the water system has been restored to full operation, and that the microbiological quality of the water in the distribution system is safe for human consumption.

You will receive a notice when the “Boil Water Notice” is lifted.

Please contact the City of Forsyth, 478-994-5649, or after business hours call 478-994-6022 if you have any questions regarding this advisory.
